11KV Composite Pin Insulator

Type: 11KV composite Pin insulator

Material: High vulcanized silicone rubber

End Fittings: Stud suit for steel cross arm or wooden cross arm

Cantilever strength: 10kN.

Application: 11kV composite pin insulator is applied for high voltage distribution line and to support conductor and insulate from ground. Since it has the advantages of composite insulator, such as light weight, small volume, non-punctured, nowadays, composite pin insulator are widely used and many countries and areas have use this type composite insulators to displace traditional porcelain pin insulator.

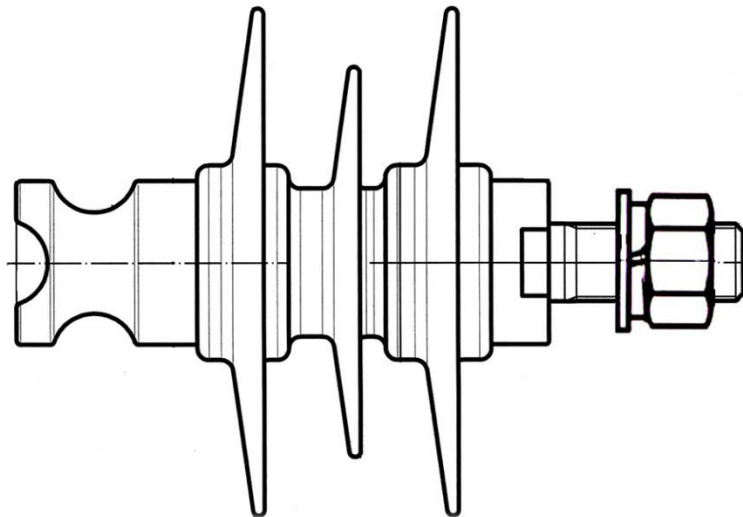

Fig. 11KV 10KN Composite Pin Insulator

Technical data:

Rated voltage	11	kV
Creepage distance	280	mm
Cantilever strength	10	kN
Power frequency wet flashover voltage	28	kV
Stud	M20	mm
Color	Grey or red	
Standard	IEC61109	
Package	Carton
