### 33KV Composite Suspension Insulator

**Type:** 33KV composite suspension insulator

**Material:** High vulcanized silicone rubber

**End Fittings:** Ball and Socket

**Specific mechanical failing load:** 70kN.

**Application:** 33kV composite suspension insulator is suitable for high voltage overhead line. As one main type of *composite insulator*, it commonly used transmission or distribution line to suspend conductor.

We can produce 33kV composite suspension insulator according to IEC61109.

We can also produce 33kV composite suspension insulator totally according to customer requirement.

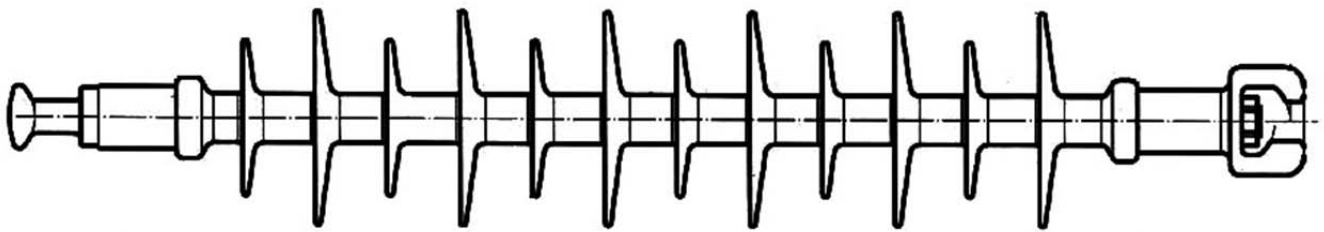

Fig. 33KV 70KN Composite Suspension Insulator

#### Technical data:

Rated voltage	33	kV
Creepage distance	1260	mm
Specific mechanical failing load	70	kN
Power frequency wet flashover voltage	90	kV
Lightning impulse withstand voltage	200	kV
Coupling size	16B	mm
Color	Grey or red	
Standard	IEC61109	
Package	Carton
